PKKMB Universitas Negeri Yogyakarta

May - Oct 2023

Expert Staff of the Media and Information Commission

- Served as a Media and Information Specialist, responsible for photography and video editing during university orientation activities.
- Produced and managed visual content to support effective information dissemination for large-scale academic events.

PROJECT

Interactive Educational Website

- Developed a responsive educational web platform as a final-year thesis project using ADDIE model, aiming to increase elementary students' dental health awareness.
- Engineered interactive gamification features including quizzes and animations using JavaScript and CSS to boost user engagement and retention.
- Designed a child-friendly User Interface (UI) with Bootstrap, ensuring cross-device compatibility (Mobile & Desktop).
- Technical Skills: HTML5, CSS, JavaScript, Bootstrap, Figma.
- Live Demo: <https://gimut.vercel.app>

Online Game Marketplace Website

- Built a full-stack e-commerce web application facilitating digital game transactions with a secure user authentication system.
- Designed a relational database schema in MySQL to manage product inventories, user data, and complex transaction histories.
- Implemented CRUD operations for product management and a shopping cart system with session handling in native PHP.
- Technical Skills: HTML, CSS, JavaScript, PHP, MySQL.
- Github: <https://github.com/faizalmakmur/gamestore>

Company Profile Website

- Developed a dynamic company website using CodeIgniter 3 MVC framework, ensuring clean code architecture and maintainability.
- Built a custom Content Management System (CMS) feature allowing administrators to update services, portfolio, and contact details without coding.
- Optimized UI/UX design for responsiveness, achieving a consistent layout across desktop and mobile devices using Bootstrap grid system.
- Technical Skills: HTML, CSS, JavaScript, Bootstrap, PHP, CodeIgniter3, MySQL.
- Github: <https://github.com/faizalmakmur/website-perusahaan>

SKILLS
